

MCR SAFETY

92737
CutPro
Cut Protection
Specification Sheet

PRODUCT DESCRIPTION:

MCR Safety Cut Pro™ offers cut resistant options that are comfortable and easy to wear. The 92737 features a seamless 13-gauge HyperMax™ shell with a durable clear silicone coated palm and fingertips. The advantages to a silicone palm versus other polymers include the fact that it is naturally antimicrobial and is hypoallergenic. The 92737 provides great abrasion and cut resistance while the silicone palm adds superior gripping power, making it a great choice for tough jobs. Looking for the best cut resistant gloves? Look no further than MCR Safety's Cut Pro® cut resistant options.

FEATURES:

- 13-gauge green HyperMax™
- Flexible which limits hand fatigue
- Clear Silicone Palm Dip
- Unmatched gripping power on dry surfaces
- Naturally Anti-Microbial
- Silicone is an inert substance. It is this property that makes this material desirable to industries such as health care [catheter tubes, implants, etc.], electrical, etc. = Silicone does not support growth of microorganisms so it is naturally antimicrobial.
- Silicone Coating is Allergen Free - is this same property that makes this material hypoallergenic as well, This is the reason that Silicone is a material of choice for cosmetics.
- Zero Absorption - If the Silicone coating becomes wet you can wipe it off and return the glove to service unlike Nitrile which absorbs

APPLICATIONS:

Agriculture, Automotive , Carpentry, Bottling, Construction, Glass handling, Landscaping, Manufacturing, Material Handling, Recycling, Warehousing
