Shipping and Receiving Traffic

Brady traffic signs provide clear, concise direction to traffic inside and outside your building. These signs can be used in and around your shipping and receiving departments to keep visitor traffic safe and moving smoothly. Available in a variety of sizes and materials for both indoor or outdoor use.

Sign Selection Guide

- FB** - Premium fiberglass (B-120)
- SS** - Self-sticking polyester (B-302)
- PL** - Plastic (B-401)
- AL** - Aluminum (B-555)
- RFAL** - Reflective aluminum (B-959)

Regulations

Federal MUTCD Standard:

No person shall install or maintain in any area of private property used by the public any sign, signal, marking or other device intended to regulate, warn or guide traffic unless it conforms to the MUTCD.

Traffic Signs and Reflectivity Section 2A.0702 of MUTCDs

Stipulates that regulatory, warning, and guide signs and object markers shall be retroreflective or illuminated to show the same shape and similar color by both day and night. Most of Brady's retroreflective signs are "engineer grade". Higher intensity "Diamond Grade" signs are available as custom options.

All posts used for mounting must be breakaway style and mounted at new minimum mounting heights

All supports require breakaway sockets or posts. Minimum mounting height is 5' from the bottom of the sign to the top of the ground in rural or low-volume areas. Minimum mounting height is 7' from the bottom of the sign in urban or heavily traveled areas.

Notice: Chock Rear Wheels 1910.178(k) and (m)

When trucks are loaded and unloaded, OSHA requires the brakes to be set and wheel chocks to be placed under the rear wheels to prevent the trucks from rolling while they are boarded with a forklift or other powered industrial truck.
