# Brady Workstation

BradyID.com/s36

## Brady Workstation

Simple. Efficient. Flexible.

Brady Workstation has revolutionized how you design and print signs and labels. When paired with the high-performance printing capabilities of a Brady printer, you get intuitive label set up for simple, efficient and flexible sign and label creation.

### Simple

Brady Workstation offers an intuitive user interface and workflow so you're ready to get started, without in-depth training. With your Brady printer, you get real-time information about the material installed in the printer to make label set up easy.

### Efficient

Each suite of apps is designed with you in mind, featuring built-in regulations, standards, pictograms, common phrases, data importation guidance, help functions and more.

### Flexible

With all your design apps in one spot, switching between identification tasks becomes a breeze. And, Brady Workstation works with our complete benchtop printer offering and select portable printers. Visit [Workstation.BradyID.com](http://Workstation.BradyID.com) for the full printer compatibility list.

Software

### Download your free 30-day trial

1. Download Brady Workstation at [Workstation.BradyID.com](http://Workstation.BradyID.com).

2. Fill your workstation with the suites that best fit your needs.

3. Begin designing labels and printing them on your Brady printer!

## Brady Workstation: Safety and Facility Identification Suite

Keep your facility safe and compliant. This suite features applications so you can easily create the custom signs, labels and pipe markers you need to add visual safety guidance to your facility.

### Included apps:

**Custom Designer**  
Complete, customized label creation and editing.

**Arc Flash**  
Create NFPA compliant arc flash labels.

**Express Signs**  
Create safety and facility signs in minutes with pre-defined templates and layouts.

**Lean**  
Create common lean labels including gauge\* and inventory labels.

**Pipe Markers**  
Easily create ANSI / ASME compliant pipe markers using pre-defined templates.

**Arrow Tape**  
Create arrow tape labels with pre-defined templates to show pipe flow direction.

**Excel Import**  
Easily import Excel data right onto your labels.

**Sequence**  
Create labels based on numeric and alphanumeric sequences.

**Template Editor**  
Set elements on labels to be editable or locked.

**Batch Print**  
Group files to print together.

**Label Settings**  
Set default horizontal and vertical printing adjustments when using specific supplies with specific printers.

**Print Partner**  
Quickly create labels by filling in a template and printing.

**Manage Files**  
Manage saved files from one screen, with options to preview, categorize and delete file.

**Network Printers**  
Connect to your printers via IP address or DNS address.

Arc flash labels

Safety labels

Facility signs

Equipment labels

Pipe markers

Lean / 5S labels and more

Software

## Additional safety and facility identification software

For more specialized identification projects, you can add on these suites and apps:

### Lockout Writer App

This intuitive tool allows you to create, store and print simple lockout procedures, associated tags and energy source labels quickly and easily.
