TCT HOLE CUTTER

Ultra-hard tungten carbide teeth to cut through a variety of materials

Drillco's line of carbide tipped hole cutters are ideal for drilling large diameter holes in both ferrous and non-ferrous materials. The 9500CT is ideal for thinner material up to 3/16" thick and the 9600CT for thicker material up to 1" thick, such as sheet metal, steel, aluminum, copper, plastics, brass, cast iron, and the difficult to machine stainless steel. They are an excellent performing, cost effective alternative to bi-metal hole saws.

FEATURES

- Portability makes them ideal for a wide range of professionals including electricians, plumbers, HVAC technicians, mechanics, general contractors, installers, DIY'ers and more
- The ultra-hard tungsten carbide teeth are made using premium grade carbide for increased performance and tool life
