

16"x24" (40cm x 60 cm) Steel Framing Square (Inch/Metric)

Set out roof rafters, identify the pitch of a roof or check that you're building things square with the Empire® Level 16-Inch x 24-Inch Steel Tradesman Square with Inch/Metric Graduations. To protect against corrosion and the development of rust, the square is made with a durable epoxy coating. In addition, the Empire level 16-inch x 24-inch steel tradesman square features steel construction that helps add to its durability and overall lifespan. For added toughness and to prevent damage to the tool on the job site, the steel is 1/16-inch thick. Measurements on this tool are stamped at 1/8-inch graduations, and each stamp is permanent, helping ensure long-lasting usefulness on the job. For versatility, the Empire Level durable epoxy finish square has both inch and metric graduations.

INCLUDES:

[\(1\) 16"x24" \(40cm x 60cm\) Steel Framing Square \(Inch/Metric\) \(1110IM\)](#)

FEATURES:
