

MSA SunShade Hard Hat Accessory

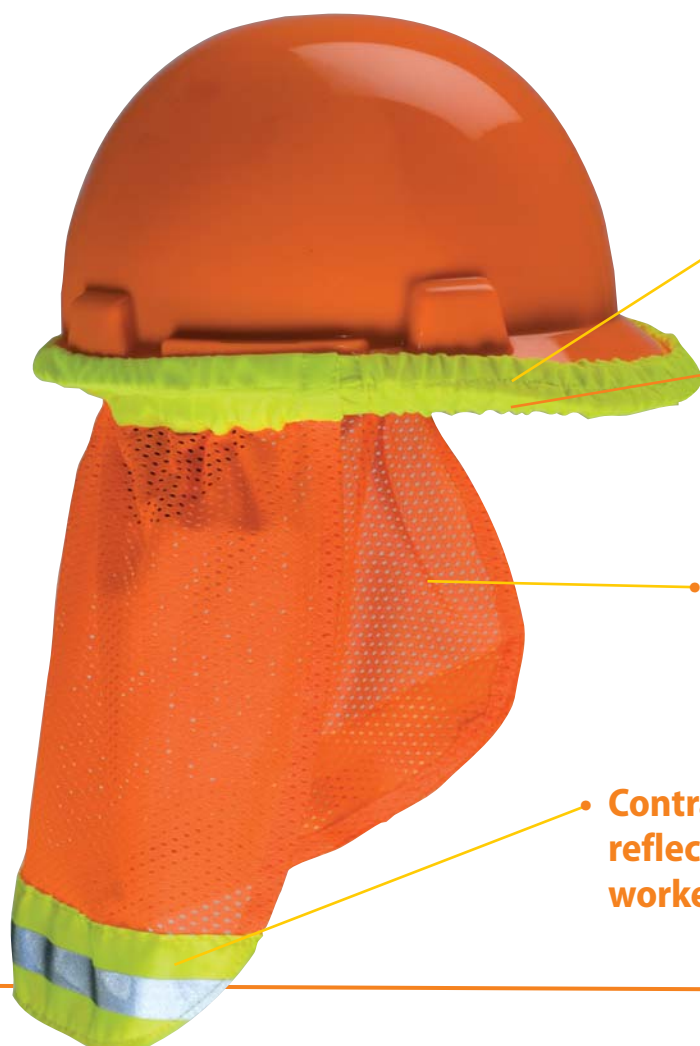

Lightweight shade attaches to a hard hat or cap to alleviate the discomfort of hot working conditions. Reflective striping enhances both day and night worker visibility.

MSA's newest hard hat accessory, the SunShade, not only helps to protect wearer's ears and neck from sun and heat, but also enhances worker visibility with contrasting color band and reflective striping.

With our SunShade accessory, workers can be cool and comfortable on the job, even in sun and heat.

Features include:

- Breathable, high-visibility polyester mesh fabric
- Flexible elastic strap allows the SunShade accessory to fit most MSA hat or caps, as well as competitors' hard hats.
- Choice of yellow-green or orange high-visibility colors
- Clips help to keep the SunShade accessory from falling or rotating. SunShade accessory does not interfere with MSA faceshields and frames—even those with lockdown feature!
- Comes complete with packaging and scannable UPC-A barcode

Fits most MSA hats or caps

Three strategically-placed clips keep the SunShade accessory from falling or rotating

Breathable, high-visibility polyester mesh

Contrasting color band with reflective stripe increases worker visibility
