

We Care About Our Environment

Join us to recycle calibration cylinders.

MSA Promotes Recycling & Reuse of Portagreen Cylinders

Cylinders are returned to Portagas and refilled for their next use. This eliminates having piles of empty cylinders in your facility and the need for on-site cylinder remediation by your employees, with no additional cost per cylinder to participate. The Strip & Ship™ program is fully functional in the United States and Canada.

Improves Cylinder Handling & Safety

- Cylinders are more compact than standard calibration gas cylinders
- Cylinders are lightweight, easy to handle
- Eliminates on-site cylinder remediation and related hazardous waste disposal

Easy to Return

- Simply peel off cylinder content label to reveal a prepaid return label
- Eliminates steps associated with standard cylinder disposal
- Saves money—no return or disposal fees

Reduced Solid Waste

- Reusable cylinders stay out of landfills

Before Returning a Cylinder

1. Make sure gauge reads zero.
2. Confirm it is a Portagreen Cylinder as shown at right.
3. Strip off MSA content label to reveal prepaid return label beneath it.

To Return a Cylinder

Arrange for FedEx pickup or deliver to a FedEx location.
