48R688	CONNECTIONS PLASTIC COVER

((SURFOX MINI) NG15/30A INVERTER BOARD

Please, see page 9 for this item.

Devices with serial numbers ranging **from 76.001 to 76.107**,
were built using the following V1 electronic components.

	WT Code	Description
V1 →	A 48R735	S. MINI (V1) CONTROL PANEL BOARD + 4 WIRE CABLE
V1 →	B 48R680	4-WIRE CONNECTION CABLE
V1 →	C 48R732 DISCONTINUED	NG15/30A_V1 INVERTER BOARD

The NG15/30A_V1 inverter board (part no. **48R732**) is no longer available. While the control panel and connection cable are still available for repair purposes, replacing the inverter board requires the purchase of the new V2 model.

Crucially, replacing the inverter board also necessitates replacing the control panel and connection cable to maintain electronic compatibility.

To facilitate this operation, Nitty Gritty provides a special kit (48R751) that includes all three new components (V2).

	WT Code	Description
V2 →	48R751	NG15/30A_V2 COMPLETE ELECTRONIC KIT

NOTE: if further repairs are required and it becomes necessary to replace the electronic components of the installed V2 kit (48R751), please refer to the part numbers listed below.

Devices with serial numbers **≥ 76.108**, were built using the following V2 electronic components.

	WT Code	Description
V2 →	A 48R752	SCHEDA DI COMANDO S. MINI V2 + CAVO A 3 FILI S. MINI V2 CONTROL PANEL BOARD + 3 WIRE CABLE
V2 →	B 48R737	CAVO DI COLLEGAMENTO A 3 FILI 3-WIRE CONNECTION CABLE
V2 →	C 48R753	NG15/30A_V2 INVERTER BOARD SCHEDA INVERTER NG15/30A_V2
