Best Knee Mill on the Market:

- Spindle driven by Servo motor, eliminating high low transmission gears and manual break.
- Smart Control – Digital display with dial speed adjustment.
- Adjusts the speed and torque dynamically, allowing it to run quieter and with less vibration for improved surface finish and extended tool life
- Load Meter – Real-time spindle power monitoring.
- Power Draw Bar- The machine is equipped with a standard power drawbar, allowing for quick and effortless tool changes.
